UNIVERSITY OF TORONTO

UTSC Winter 2025 UG Course Evaluation Report

Please review the Step-by-Step Guide to Reviewing Your Course Evaluations for instructors to assist with interpreting your report(s).

Content of Course Evaluation Reports

The University of Toronto's Cascaded Course Evaluation Framework (CCEF) offers the opportunity for students to provide feedback on their own learning experiences. The CCEF comprises institutional items, divisional items, departmental items as well as instructor-selected items. More information about the CCEF is available on the course evaluations website.

While interpreting course evaluation results, it is important to keep the following in mind:

Course evaluations provide student perspectives on their learning experiences in the course and experts on teaching evaluation advise that no individual method gives the complete picture of an instructor's teaching effectiveness. Moreover, in the U of T context, other factors such as class size and class level were found to cause small variations in the numerical ratings.

This report contains four sections:

Section 1: Quantitative Data	Section 2: Instructor-Selected Items	Section 3: Comparative Data	Section 4: Qualitative Comments
Results of institutional, divisional, and departmental rating-scale items.	Results of rating-scale items you have selected during the Item Selection period **this term.**	Comparative results of this course vs. all courses evaluated in the department and/or division **this term.**	Unedited student responses to the institutional open-ended questions.

Statistical Terms Used in this Report

Mean: The mathematical average.	Median: The middle value when all responses are ordered. Less sensitive to extreme and/or divergent scores.	Mode: The most frequently occurring score.	Standard Deviation: A measure to indicate the "spread" of the scores.

The Institutional Composite Mean (ICM): A mathematical average of the first five institutional rating scale items (Ins01-05), which represent institution-wide teaching and learning priorities.

The 2018 Validation Study established the reliability and validity of using the ICM as a metric to understand students' collective experiences.

% of Endorsement: The percentage of respondents that selected the two most positive response options ("A Great Deal" and "Mostly" combined in Ins01 to Ins05; "Excellent" and "Very good" combined in Ins06).

UTSC Winter 2025 UG Course Evaluation Report for Jeffrey Hicks

Course Name: Eco of Public Sector: Expendit MGEC32H3-S-LEC01
Delivery Mode: INPER
Division: UTSC
Department: MGTSC

Raters	Students
Responded	7
Invited	26
Response Ratio	27%

Section 1: Course Evaluation Results - Quantitative Data

This section provides a figure and statistical information about institutional, divisional, and departmental rating-scale items. Please see Section 4 for open-ended responses.

For the 6 institutional items (Ins01 to Ins06), the two sets of scales and the associated numerical values are:

Ins01-Ins05	**Ins06**
Not at all-1	Poor-1
Somewhat-2	Fair-2
Moderately-3	Good-3
Mostly-4	Very Good-4
A Great Deal-5	Excellent-5

Divisional and departmental items may use scales different than the two noted above.

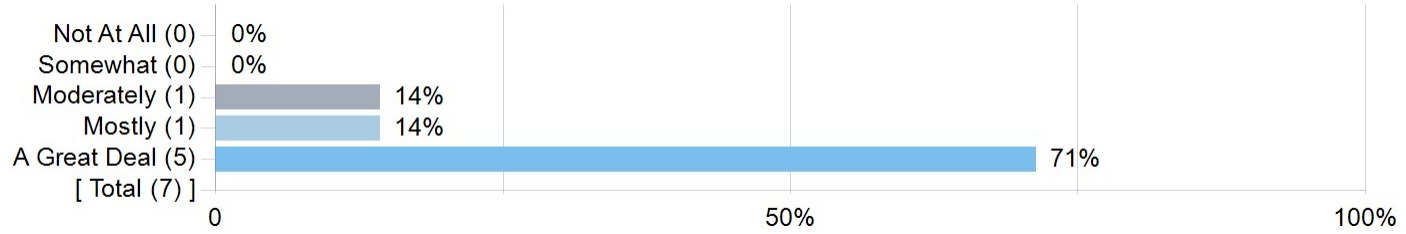
The bar graphs provide the number and percentage of respondents selecting each answer option for each item. The distribution of answer options in the bar graphs gives the most complete information about the typical student response and the variability in the distribution of responses. When interpreting course evaluation results, the bar graph provides more nuanced information than any summary statistic alone.

Mean, Median, Mode and Standard Deviation are calculated from the numerical values of each answer option.

“% of Endorsement” indicates the percentage of respondents that selected the two most positive response options (“A Great Deal” and “Mostly” combined in Ins01 to Ins05; “Excellent” and “Very good” combined in Ins06). Please note that divisional and departmental items might use scales that are not in ascending order and thus “% of Endorsement” is only provided for institutional rating-scale items.

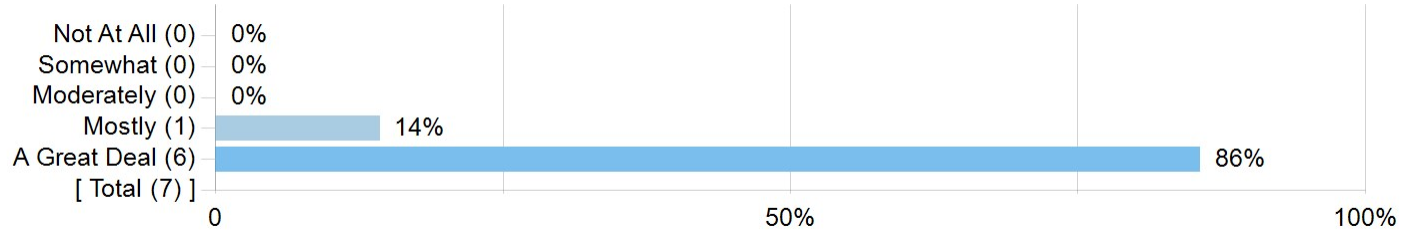
Institutional Items

Ins01. I found the course intellectually stimulating.



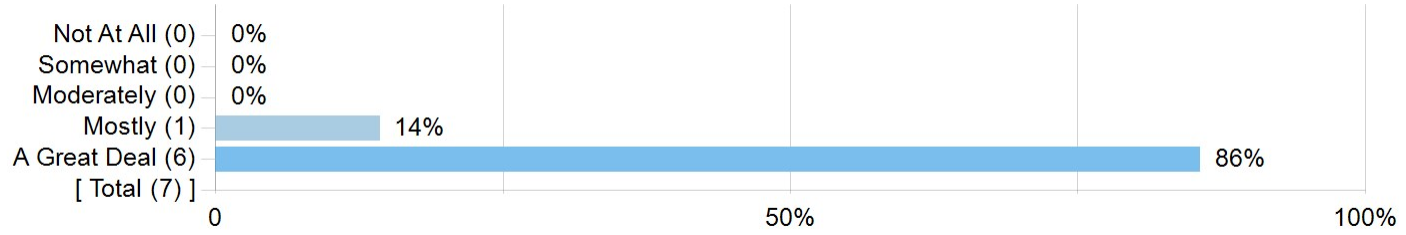
Statistics	Value
Mean	4.6
Median	5.0
Mode	5
Standard Deviation	0.8
% of Endorsement	86%

Ins02. The course provided me with a deeper understanding of the subject matter.



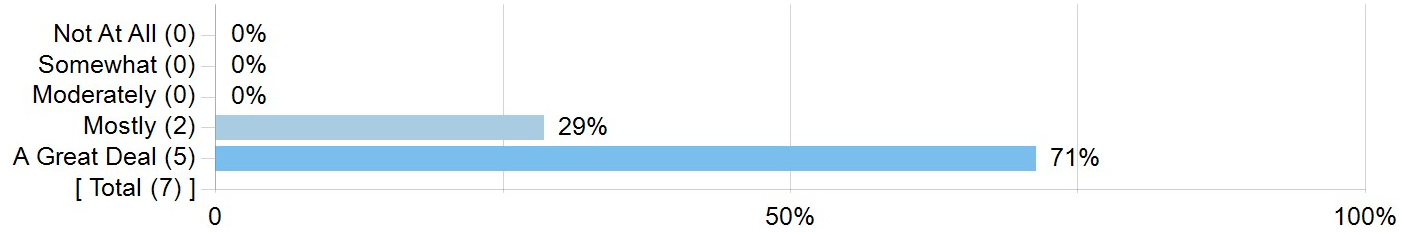
Statistics	Value
Mean	4.9
Median	5.0
Mode	5
Standard Deviation	0.4
% of Endorsement	100%

Ins03. The instructor (Jeffrey Hicks) created an atmosphere that was conducive to my learning.



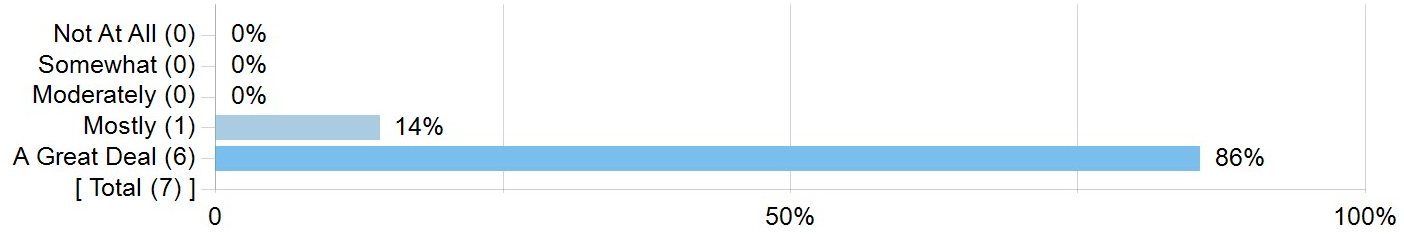
Statistics	Value
Mean	4.9
Median	5.0
Mode	5
Standard Deviation	0.4
% of Endorsement	100%

Ins04. Course projects, assignments, tests, and/or exams improved my understanding of the course material.



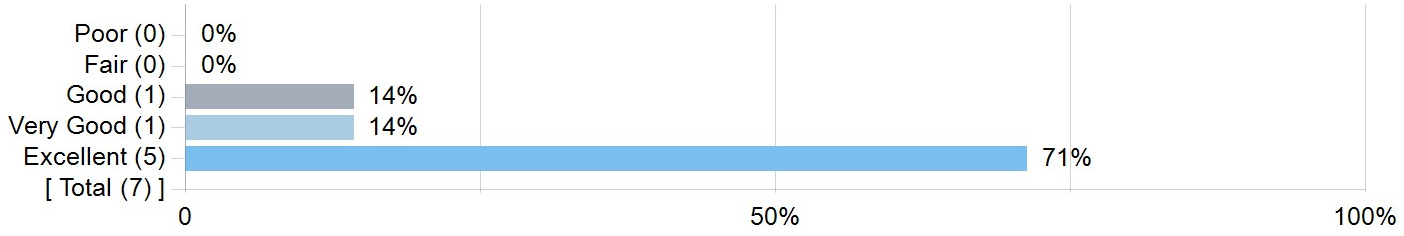
Statistics	Value
Mean	4.7
Median	5.0
Mode	5
Standard Deviation	0.5
% of Endorsement	100%

Ins05. Course projects, assignments, tests and/or exams provided opportunity for me to demonstrate an understanding of the course material.



Statistics	Value
Mean	4.9
Median	5.0
Mode	5
Standard Deviation	0.4
% of Endorsement	100%

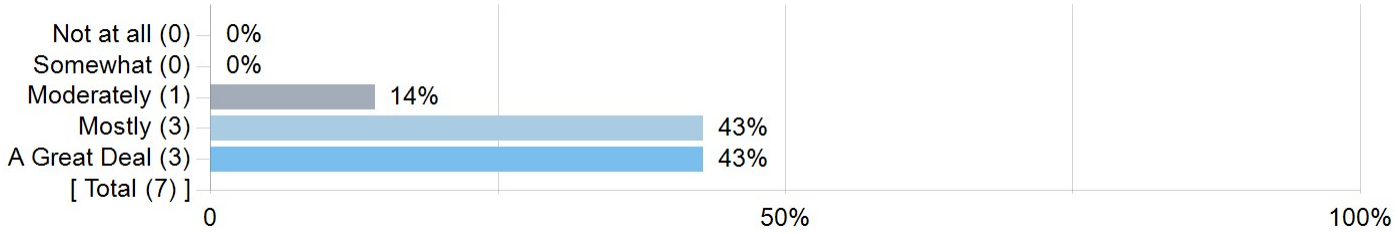
Ins06. Overall, the quality of my learning experience in this course was:



Statistics	Value
Mean	4.6
Median	5.0
Mode	5
Standard Deviation	0.8
% of Endorsement	86%

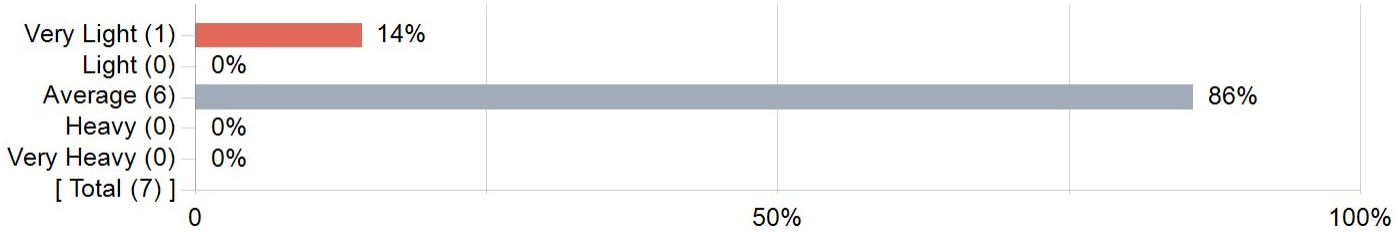
Divisional Items

UTSC001 The course inspired me to think further about the subject matter outside of class.



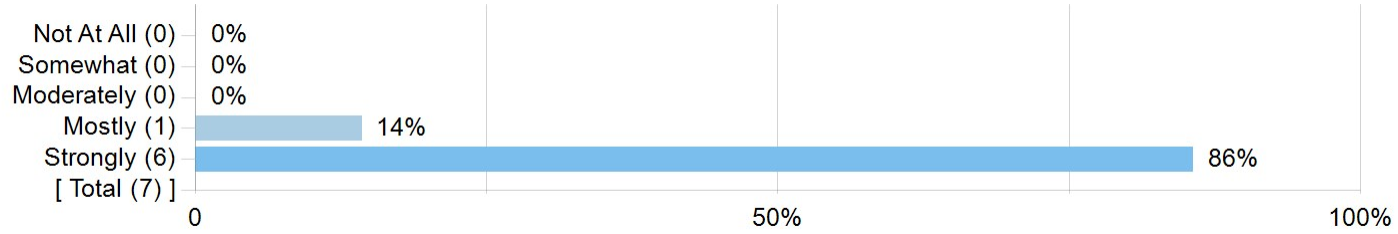
Statistics	Value
Mean	4.3
Median	4.0
Mode	4, 5
Standard Deviation	0.8

UTSC002 Compared to other courses, the workload for this course was:



Statistics	Value
Mean	2.7
Median	3.0
Mode	3
Standard Deviation	0.8

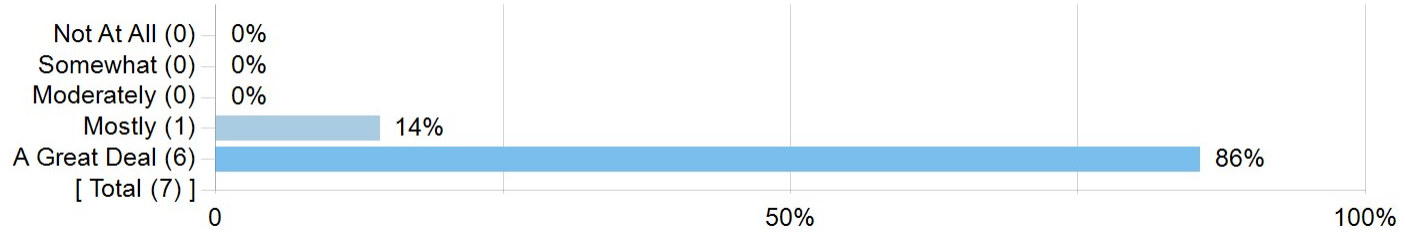
UTSC003 I would recommend this course to other students.



Statistics	Value
Mean	4.9
Median	5.0
Mode	5
Standard Deviation	0.4

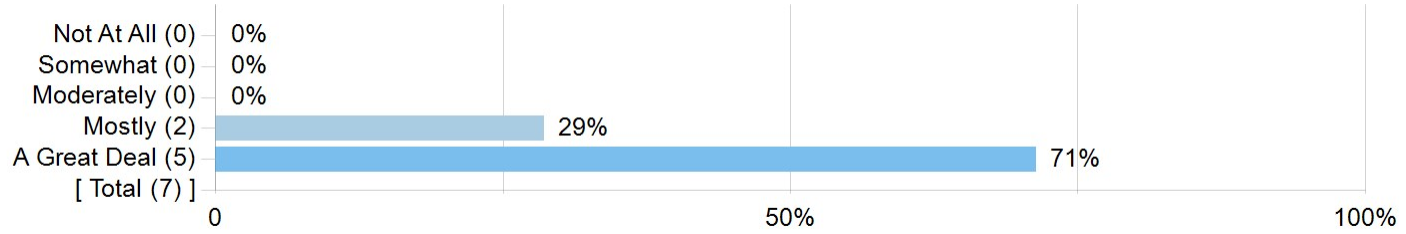
Departmental Items

UTSCMGMT001 The course instructor (Jeffrey Hicks) was enthusiastic about the course material.



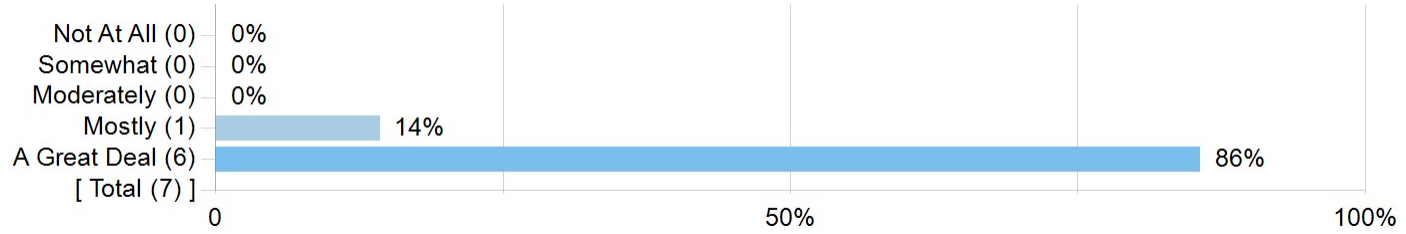
Statistics	Value
Mean	4.9
Median	5.0
Mode	5
Standard Deviation	0.4

UTSCMGMT002 The course instructor (Jeffrey Hicks) explained concepts clearly.



Statistics	Value
Mean	4.7
Median	5.0
Mode	5
Standard Deviation	0.5

UTSCMGMT003 The course instructor (Jeffrey Hicks) expressed an interest in student understanding when explaining course concepts.



Statistics	Value
Mean	4.9
Median	5.0
Mode	5
Standard Deviation	0.4

Section 2: Instructor-selected Items

This section provides the results of the quantitative items you selected from the item bank during the question personalization period. These results are available only to you as they serve for personalized formative feedback.

Please note instructor-selected items are *not included* in the administrative report provided to your department.

Section 3: Comparative Data

This section provides comparative information (i.e., means and medians) between the results of this course and those of all courses evaluated in the department (if applicable) and/or in the division **in this term**.

Please note that means for the department/division are weighted by the number of respondents so courses with higher numbers of respondents carry more weight in the calculation of the departmental/divisional mean values.

The departmental and divisional median values are the middle values when responses from all courses are ordered.

Departmental/divisional mean and median values are provided for comparison but due to other course factors that may influence the responses for a course, they should not be regarded as definitive benchmarks.

Institutional Composite Mean (ICM): A mathematical average of the first five institutional rating scale items (Ins01-05).		
Course	**Department**	**Division**
4.8	**4.1**	**4.1**

Institutional Items	Course Mean	Dept Mean	Div Mean	Course Median	Dept Median	Div Median
Ins01. I found the course intellectually stimulating.	4.6	4.0	4.0	5.0	4.0	4.0
Ins02. The course provided me with a deeper understanding of the subject matter.	4.9	4.1	4.1	5.0	4.0	4.0
Ins03. The instructor (Jeffrey Hicks) created an atmosphere that was conducive to my learning.	4.9	4.2	4.2	5.0	5.0	5.0
Ins04. Course projects, assignments, tests, and/or exams improved my understanding of the course material.	4.7	4.1	4.0	5.0	4.0	4.0
Ins05. Course projects, assignments, tests and/or exams provided opportunity for me to demonstrate an understanding of the course material.	4.9	4.1	4.0	5.0	4.0	4.0
Ins06. Overall, the quality of my learning experience in this course was:	4.6	3.9	3.8	5.0	4.0	4.0

Divisional Items	Course Mean	Dept Mean	Div Mean	Course Median	Dept Median	Div Median
UTSC001 The course inspired me to think further about the subject matter outside of class.	4.3	3.8	3.8	4.0	4.0	4.0
UTSC002 Compared to other courses, the workload for this course was:	2.7	3.2	3.2	3.0	3.0	3.0
UTSC003 I would recommend this course to other students.	4.9	3.8	3.8	5.0	4.0	4.0

Departmental Items	Course Mean	Dept Mean	Course Median	Dept Median
UTSCMGMT001 The course instructor (Jeffrey Hicks) was enthusiastic about the course material.	4.9	4.4	5.0	5.0
UTSCMGMT002 The course instructor (Jeffrey Hicks) explained concepts clearly.	4.7	4.3	5.0	5.0
UTSCMGMT003 The course instructor (Jeffrey Hicks) expressed an interest in student understanding when explaining course concepts.	4.9	4.3	5.0	5.0

Section 4: Qualitative Comments

Please note that unedited student responses are presented here in random order.

When reviewing student responses, look for common themes and focus on actionable feedback. For assistance interpreting your report(s), please see details on the Step-by-Step Guide to Reviewing Your Course Evaluations for Instructors.

Ins07. Please comment on the overall quality of the instruction in this course.

Comments
Professor Jeff is awesome. I can easily understand the course materials, and I enjoy being in his lecture
I loved the instruction of this course as the prof was very professional and overall very knowledgeable. I think this is the best economics course I have had yet.
Prof Hicks is great at teaching. He is actually fun to listen to and you don't get bored. His teaching style actually makes sure understand everything.
Really good! Prof. Hicks was really fun to learn from and he created a very nice atmosphere in class too. i learnt a lot.
Good quality, made sure we all understood the content before moving forward (mostly).
Professor Jeffery was an excellent and understanding professor who went out of his way to ensure that everybody in class understood the subject matter. Moreover, he never hesitated to offer additional support through tutorials and office hours. I would love to take another class with him!

Ins08. Please comment on any assistance that was available to support your learning in the course.

Comments
There was readily a lot of assistance over email and in tutorials by the prof. Also office hours.
Prof Hicks is always willing to talk and help wherever it is needed.
Good
Office hours and tutorial time.
please see above ^
